The New Psychology of Leadership: Identity, Influence and ...

The book begins by reviewing the old psychology of leadership, that is, the "great man" and "cult of personality" theories. This has been the main focus of research for many years in psychology - that is, the personality characteristics of leaders, be they key figures in business or politics, or even dictators.

The New Psychology of Leadership: Identity, Influence and ...

Essentially, "The New Psychology of Leadership" progresses through a systematic and very well-researched idea of what, precisely a leader does and how he functions on a social level. Considering that we are now in an age in which "social" is an important buzzword in the corporate as well as political and private realms, this book has much to offer in terms of rethinking old ideas.
